SUMMARY

Computer Engineering student (8th semester) with hands-on experience across full-stack development, machine learning, data science, data visualization, and automation. Built and shipped 10+ independent projects spanning web applications, computer vision, and NLP, and completed a 3-month AI/Data internship applying Python-based ML workflows. Seeking an entry-level software engineering or AI/ML role.

SKILLS

- **Languages:** Python, JavaScript, C, C++
- **Backend & Frameworks:** Django, Node.js, Celery, REST APIs, Postman
- **Frontend:** React.js, HTML, CSS, Tailwind CSS
- **Databases:** PostgreSQL, MySQL, NoSQL, Redis
- **ML / Data:** Scikit-learn fundamentals, MobileNetV2, VGG16, Yolo V5, T5-base, image classification, sentiment analysis
- **Tools & Platforms:** Git, GitHub, Cursor, VS Code, Selenium, OAuth, Google Cloud Console

EXPERIENCE

AI/Data Intern — UBA Solutions, Imadol, Lalitpur

Apr 2026 – Jul 2026

- Completed a 3-month internship applying Python-based data and machine learning workflows to real project tasks, working alongside a technical team in an agile environment.
- Strengthened practical skills in data handling, model workflows, and collaborative software development, translating academic ML coursework into applied experience.
- Data Collection, Data Cleaning, Data Preprocessing, Data Visualization, Feature Extraction, Exploratory Data Analysis (EDA), Extract, Transform, Load (ETL) Pipeline

PROJECTS

ClothSA — Cloth Review Aggregator (Aspect-Based Sentiment Analysis)

Python, Django, Selenium, T5-base

- Built a web app that scrapes product reviews in real time from Amazon listings via Selenium and automated web scraping.
- Applied a T5-base NLP model to extract review aspects and classify sentiment (positive/negative/neutral), with data visualizations to help users compare products at a glance.

EmailAiAssistant — Smart Email Automation

Python, Django, React.js, Redis, Celery, Gemini API, OAuth

- Developed a full-stack email assistant that uses the Gemini API to draft replies, auto-respond by priority, and extract meetings/events directly from inbox content.
- Also generates a summary of messages and files from the inbox content.
- Implemented asynchronous task processing with Celery and Redis and secured Gmail access via Google OAuth.

VegScan — AI Recipe Recommendation

Python, Django, MobileNetV2, VGG16

- Built an image-classification pipeline (MobileNetV2, VGG16) that identifies vegetable ingredients from photos and generates matching recipe recommendations.

HoneyPot Monitoring System

Node.js, React.js, PostgreSQL

- Engineered a honeypot system that simulates vulnerable ports to capture and log intrusion attempts, with a React dashboard for live attack monitoring.

Gym Management System

Python, Streamlit, PostgreSQL

- Built a web application to manage memberships, attendance, and payments through a dashboard backed by a secure PostgreSQL database.

EDUCATION

Bachelor of Computer Engineering — Khwopa Engineering College, Bhaktapur

Ongoing, 8th Semester

+2 in Science — St. Xavier's School, Jawalakhel, Lalitpur

Dec 2021 · GPA 3.36

ACHIEVEMENTS & ADDITIONAL EXPERIENCE

- Completed, Machine Learning Operations (MLOps) for Generative AI (Aug 13, 2026) — https://www.skills.google/public_profiles/57480567-7df7-4f5c-9d27-687135b121d1/badges/26742657
- Completed, BigQuery Machine Learning for inference (Aug 7, 2026) — https://www.skills.google/public_profiles/57480567-7df7-4f5c-9d27-687135b121d1/badges/26389872
- Completed, Gemini for Data Scientists and Analysts (Aug 6, 2026) — https://www.skills.google/public_profiles/57480567-7df7-4f5c-9d27-687135b121d1/badges/26344381
- Exhibitor, National Exhibition Aarohan 2.0, Khwopa Engineering College (23-24 Jul 2026)
- Participant, Lumivya Technology's AI & Data Bootcamp — ATLAS: Agentic Tools, LLMs, and Scalable Systems (29 Mar 2026)
- Participant, AWS Fundamentals Workshop — KhEC Knowledge Sharing Circle with AWS Cloud Club, Tribhuvan University (Aug 2025)
- Completed, 3-Day Python Django Workshop, Vrit Technologies
- Participant, HULT Prize, Khwopa Engineering College (2023)
